

First South Asia Federation of Obstetrics and gynecologist (SAFOG) meeting hosted in Bhutan by Khesar Gyalpo University of Medical Science through UNFPA support.

27 SAFOG members and more than 70 national specialist, midwives and nurses from districts health facilities attended this first ever two days meeting as a part of their continuing medical education in sexual and reproductive health services. The meetings fostered the collaboration and promote skills and knowledge sharing of good practices and lessons learned in the areas of sexual and reproductive health among the SAARC nations.
